

PRATIK VIJAY SHELAR

Computer Engineering Student (AI) | Full Stack Developer (MERN) | DSA Learner

Pune, Maharashtra, India | +91 9322563390 | shelarpratik201@gmail.com | GitHub: github.com/Pratik-Ghrcemp

CAREER OBJECTIVE

Third-year B.Tech Computer Science Engineering (Artificial Intelligence) student and MERN stack developer with practical experience building authentication-based full-stack applications, REST APIs, database-driven systems, and responsive user interfaces. Strong foundation in C++, JavaScript, DSA, OOP, DBMS, and software development fundamentals, with 100+ LeetCode problems solved. Looking for a software development internship or entry-level role where I can contribute to production-quality web applications, write clean maintainable code, and grow with an engineering team.

EDUCATION

G.H. Raisoni College of Engineering and Management, Pune

VI Semester completed

B.Tech in Computer Science and Engineering (Artificial Intelligence), Savitribai Phule Pune University | CGPA: 7.99/10 | Third Year completed; entering Fourth Year

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL, Java (Basic)

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Tools: Git, GitHub, VS Code, Postman, Render

Frontend: HTML5, CSS3, React.js, Bootstrap, Material UI

Databases: MySQL, MongoDB

Core: DSA, OOP, DBMS, Authentication, MVC Architecture, System Design Fundamentals

Coursework: DSA, DBMS, OOP, Web Development, AI Fundamentals

PROJECTS

Maintenance Ticket Management System

Full Stack

React.js, Node.js, Express.js, Prisma, MySQL, JWT

github.com/Pratik-Ghrcemp/maintenance-ticket-management-web-application

- Built a facility maintenance ticketing platform with role-based access for Admin, Technician, and User.
- Implemented ticket creation, assignment, status tracking, comments, image uploads, audit logs, and structured ticket lifecycle.
- Designed secure REST APIs with JWT authentication and relational database integration for reliable request tracking.
- Strengthened backend-development experience with protected routes, user roles, Prisma models, and API testing.

WanderLust Stays - Travel Listing Platform

MERN

MongoDB, Express.js, React.js, Node.js, Render

github.com/Pratik-Ghrcemp/WanderLust-Stays | wanderlust-stays-i4o9.onrender.com

- Developed a travel stay listing web app with authentication, listings, reviews, image uploads, and MongoDB persistence.
- Implemented CRUD functionality, responsive UI, search/listing management, routing, and cloud deployment on Render.
- Applied MERN architecture, data modeling, reusable components, and deployment workflow in a real project environment.

React Weather App

Frontend/API

React.js, Vite, Material UI, OpenWeather API

github.com/Pratik-Ghrcemp/react-weather-app

- Created a responsive dashboard that fetches live city weather including temperature, humidity, feels-like, and min/max conditions.
- Built a clean Material UI interface with API handling, search functionality, and dynamic visuals based on weather conditions.

Currency Converter

JavaScript

HTML, CSS, JavaScript, Live Exchange Rate API

github.com/Pratik-Ghrcemp/CurrencyConverter

- Built a responsive currency converter with live rates, country flags, swap functionality, light/dark mode, and API error states.

ADDITIONAL DEVELOPMENT WORK

- Built mini web applications including Mini WhatsApp CRUD App, RESTful Posts App, Rock Paper Scissors, Tic Tac Toe, TaskFlow Bootstrap page, and Amazon UI clone.
- Practiced full-stack fundamentals through CRUD operations, routing, form handling, API integration, reusable UI components, and responsive layouts.
- Converted Figma-based UI into a responsive React landing page for an internship-style assignment.

ACHIEVEMENTS

- Solved 100+ DSA problems using C++, improving problem-solving skills in arrays, strings, recursion, searching, and sorting.
- Maintained an active GitHub portfolio with multiple public web development projects.
- Earned GitHub achievements including Quickdraw, Pull Shark, and YOLO.
- Built and documented projects across MERN stack, API integration, CRUD apps, games, and responsive frontend development.

STRENGTHS

Analytical problem-solving | Debugging mindset | Quick learner | Team collaboration | Clean code mindset | Consistent self-learning | Project ownership

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.

Pratik Vijay Shelar | Pune, India
